

LESSON-07-STUDENT-WORKBOOK

ZENITHPRO LESSON 7: COMPLETE STUDENT WORKBOOK

"From Belief Architecture to Paid Traffic Execution"

Date: December 3, 2025

Version: 3.0 — Self-Study Complete Edition (All Prompts Embedded)

BEFORE YOU START: ONE-PAGE CHECKLIST

Stop here if any box is unchecked. Go back to Lesson 6 and complete first.

Required L6 Outputs

Status	Output	Quick Verification
[]	Core Concept	Can you state it in one sentence?
[]	Avatar Analysis	Do you have demographics + psychographics?
[]	Belief Path Mapper	Does it have Identity Beliefs section (Phase 1)?
[]	Belief Path Mapper	Does it have P.R.I.M.E.™ scores?
[]	Belief Path Mapper	Are Gateway Beliefs marked?
[]	Content Ecosystem	Does it have Epiphany Units with S.P.A.R.K.™ scores?
[]	Belief Gap Analyzer	Does it list all 6 Conversion Gaps?
[]	Belief Gap Analyzer	Is the Micro-Commitment Ladder present?

Ready to Execute

Status	Resource	Notes
[]	AI Tool Ready	Claude or ChatGPT open in browser
[]	90 Minutes Blocked	Uninterrupted time for prompt execution
[]	This Workbook Open	Reference while running prompts
[]	L6 Outputs Saved as Files	Ready to upload to AI

If all boxes are checked, proceed to Section 1.

PHASE 3: ARCHITECTURE

PHASE 4: SYNTHESIS

PHASE 5: POST-LAUNCH

TABLE OF CONTENTS

1. [Executive Overview](#)
2. [What You Need from Lesson 6](#)
3. [Glossary of Key Terms](#)
4. [How to Use the Prompts](#)
5. [The 7 Prompts](#)
6. [Step-by-Step Execution Guide](#)
7. [Understanding the Sample Outputs](#)
8. [Red Flags: What Bad Output Looks Like](#)
9. [What You're Building for Lesson 8](#)
10. [Quick Reference & Troubleshooting](#)

1. EXECUTIVE OVERVIEW

What This Lesson Is About

The Core Transformation: You will take your comprehensive belief architecture from Lesson 6 and translate it into campaign-ready targeting, creative assets, and a complete execution roadmap.

Why This Matters: 99% of marketers create ads without psychological architecture. They're guessing. You have something they don't: a complete map of your buyer's mind. Now you'll translate

that map into traffic.

The Big Picture

LESSON 6 OUTPUTS		LESSON 7 OUTPUTS	
Belief Path Mapper (Identity beliefs)	→	Targeting Translator (Cohort clusters for Facebook)	
Content Ecosystem (Epiphany Units)	→	Creative Generator (Headlines, scripts, ads)	
Belief Gap Analyzer (Conversion gaps)	→	Funnel Translator (Landing page, emails, webinar)	
P.R.I.M.E.™ Diagnosis	→	Campaign Architect (Hypothesis matrix, wave structure)	
All Above	→	Retargeting Builder (40-ad Visibility Stack)	
All Above	→	Testing Evaluator (Cut/Prune/Scale decisions)	
ALL LESSON 7 OUTPUTS	→	Launch Work Order Generator (Complete production checklist)	

What You'll Have at the End of Lesson 7

By completing all 7 prompts, you will have:

- 1. **5-8 Cohort Clusters** — Validated Facebook targeting groups based on identity beliefs
- 2. **35+ Headlines** — With S.P.A.R.K.™ scores, ready for ads
- 3. **7+ Long-Form Ad Posts** — Following The Reframe Sequence
- 4. **21+ Video Hooks** — 3-5 second scroll-stoppers
- 5. **7+ 60-Second Video Scripts** — Teleprompter-ready
- 6. **21+ Image Concepts** — Visual direction for ads
- 7. **Campaign Structure** — 5 campaigns in 3 waves over 7.5 days
- 8. **40-Ad Visibility Stack** — Complete retargeting roster

- 9. **Email Sequence** — 7-day bridge sequence
- 10. **Landing Page Architecture** — Full conversion flow
- 11. **Complete Launch Work Order** — Day-by-day production checklist

Budget Standard

Throughout this lesson, the standard budget is \$10/day per campaign minimum.

This applies to:

- Cold traffic campaigns (Wave 1-3)
- Individual cluster tests
- Scaling duplicates

The Visibility Stack runs separately at ~\$1/day per ad (\$30-50/day total).

2. WHAT YOU NEED FROM LESSON 6 (The L6→L7 Bridge)

Required Inputs

Before running ANY Lesson 7 prompt, verify you have these outputs from Lesson 6:

Critical Checklist

L6 Output	What You Need From It	Where It Goes in L7
Core Concept	Your one transformative idea	ALL prompts (type it at the end)
Belief Path Mapper	Identity beliefs, Gateway beliefs, P.R.I.M.E.™ scores	Prompts 01, 02, 03 (upload file)
Content Ecosystem	Epiphany Units with S.P.A.R.K.™ scores, video clips	Prompts 02, 04 (upload file)
Belief Gap Analyzer	6 conversion gaps, micro-commitments, PONR	Prompt 05 (upload file)

The Key Translation Points

Your L6 outputs contain HIDDEN GOLD that L7 prompts extract:

- 1. **Identity Beliefs** → Become Facebook targeting cohorts
- 2. **Gateway Beliefs** → Become TOP PRIORITY ad themes
- 3. **S.P.A.R.K.™ Scores** → Prioritize which content becomes ads first
- 4. **Epiphany Units** → Become your ad hooks, angles, and scripts
- 5. **P.R.I.M.E.™ Diagnosis** → Determines messaging approach

What If Your L6 Outputs Are Incomplete?

Missing Element	Impact	Quick Fix
Core Concept unclear	ALL prompts will fail	Re-run Core Concept prompt from L6
No Identity Beliefs	Targeting will be generic	Re-run Belief Path Mapper
Missing S.P.A.R.K.™ scores	Can't prioritize creative	Content Ecosystem should have them
No P.R.I.M.E.™ diagnosis	Wrong messaging approach	Check Belief Path Mapper Executive Summary
Incomplete Belief Gaps	Funnel won't convert	Re-run Belief Gap Analyzer

3. GLOSSARY OF KEY TERMS

P.R.I.M.E.™ Framework

A diagnostic scoring system for your avatar's psychological readiness.

Letter	Dimension	What It Measures	Scale
P	Pain	How much frustration/urgency they feel	1-10
R	Receptivity	How open they are to new solutions	1-10
I	Implementation	Their capacity to take action	1-10
M	Momentum	Their current energy/direction	1-10
E	Expectation	Their belief that change is possible	1-10

Primary Weakness = Lowest Score → This determines your messaging priority

S.P.A.R.K.™ Framework

A scoring system for evaluating headlines and content effectiveness.

Letter	Dimension	Max Score
S	Significant	10
P	Proprietary	10
A	Arousing	10
R	Resonant	10
K	Kinetic	10

Total: 50 points maximum (35+ = Ready for prime time)

Quick Verdict™ (Cut/Prune/Scale)

The 2.5-day (60-hour) evaluation decision framework.

	CPL < \$10	CPL \$10–20	CPL > \$20
CTR > 1.5%	SCALE	PRUNE	PRUNE/CUT
CTR 1.0–1.5%	PRUNE	PRUNE	CUT
CTR < 1.0%	PRUNE/CUT	CUT	CUT

Solution-Confused (70% of Market)

Your PRIMARY target—people who KNOW they have a problem, HAVE TRIED to solve it, and HAVEN'T gotten results. They're frustrated and skeptical.

The Reframe Sequence™

The 4-step messaging structure for Solution-Confused prospects:

- 1. **Acknowledge Symptom** — Meet them where they are
 - 2. **Validate Failed Attempts** — Earn trust, remove blame
 - 3. **Reveal Deeper Cause** — Create the "aha"
 - 4. **Position as Different** — Show your solution addresses the REAL problem
-

Epiphany Units

A cluster of 2-4 related beliefs that combine to create a single moment of insight. Each Epiphany Unit becomes 5 headlines, 1 long-form post, 3 video hooks, 1 60-second script, and 3 image concepts.

Visibility Stack™

A 30-50 ad system running at \$1/day each to your warm audience. Mix: 27% Connection, 33% Authority, 27% Credibility, 13% Activation.

The 6 Conversion Gaps

The 6 beliefs that must shift between "I accept your Core Concept" and "I'm buying":

- 1. **Solution Fit** — "Is this for people like me?"
 - 2. **Capability** — "Can I actually do this?"
 - 3. **Investment** — "Is this worth the price?"
 - 4. **Timing** — "Is now the right time?"
 - 5. **Guide Trust** — "Is this the right guide?"
 - 6. **Risk** — "What if it doesn't work?"
-

Key Metrics

Metric	Target
CTR	1.5%+

Metric	Target
CPL	<\$10
CPC	<\$2
Opt-in Rate	30%+

4. HOW TO USE THE PROMPTS

The Upload Method (No Copy/Paste of Content)

Each prompt is designed to work with your L6 OUTPUTS as **uploaded files**. You do NOT need to copy/paste specific sections into the prompt.

For Each Prompt:

1. **Copy the entire prompt** from Section 5 below
2. **Paste it into your AI tool** (Claude or ChatGPT)
3. **Upload your L6 output file(s)** as specified
4. **Type your Core Concept** at the end where indicated
5. **Run the prompt**

The AI will automatically extract the Identity Beliefs, P.R.I.M.E.™ scores, Epiphany Units, etc. from your uploaded documents.

What to Upload for Each Prompt

Prompt	Upload These Files
01: Targeting Translator	Belief Path Mapper output
02: Creative Generator	Content Ecosystem output
03: Campaign Architect	Prompt 01 output + Prompt 02 output
04: Retargeting Builder	Content Ecosystem output
05: Funnel Translator	Belief Gap Analyzer output
06: Testing Evaluator	Your campaign data (paste in prompt)
07: Launch Work Order	ALL outputs from Prompts 01-05

5. THE 7 PROMPTS (COMPLETE WITH FULL TEXT)

Prompt Overview

#	Prompt Name	Upload	Output	Time
01	Targeting Translator	Belief Path Mapper	Cohort clusters	15 min
02	Creative Generator	Content Ecosystem	Headlines, scripts, ads	20 min
03	Campaign Architect	01 + 02 outputs	Campaign structure	15 min
04	Retargeting Builder	Content Ecosystem	40-ad roster	15 min
05	Funnel Translator	Belief Gap Analyzer	Email + landing page	20 min
06	Testing Evaluator	Campaign data	Cut/Prune/Scale	10 min
07	Launch Work Order	ALL outputs	Production checklist	15 min

PROMPT 01: TARGETING TRANSLATOR

Upload: Your Belief Path Mapper output file

Copy This Entire Prompt:

```
# TARGETING TRANSLATOR v1.0: From Belief Architecture to Cohort Clusters

## YOUR TASK

You are a behavioral targeting architect who translates psychological belief systems into actionable Facebook/Meta audience cohorts. Your job is to take the complete output from a Belief Path Mapper analysis and transform it into campaign-ready targeting clusters that reach prospects based on WHO THEY ARE (identity beliefs), not just what they're interested in.

This is BELIEF-BASED TARGETING™—where every audience cluster maps directly to a specific identity belief that, when shifted, moves the prospect toward Core Concept acceptance.

---

## THE SOLUTION-CONFUSED: YOUR PRIMARY TARGET

The traditional awareness ladder misses ZenithPro's PRIMARY target: the **Problem-
```

Aware, Solution-Confused**.

THE SOLUTION-CONFUSED PROSPECT:

- └ KNOWS they have a problem (they're past "unaware")
- └ HAS TRIED to solve it (proven they take action)
- └ HASN'T gotten results (frustrated, skeptical)
- └ Is treating a SYMPTOM, not the real cause
- └ Represents 70%+ of your ideal prospects

When building cohorts, prioritize signals that indicate FAILED ATTEMPTS at solving the problem—not just awareness of the problem.

The P.R.I.M.E.™ Profile of Solution-Confused:

- Pain (P): HIGH (frustrated pain)
- Receptivity (R): GUARDED (been burned before)
- Implementation (I): PROVEN (they take action)
- Momentum (M): STALLED or SCATTERED
- Expectation (E): LOW (skeptical)

PHASE 1: IDENTITY BELIEF EXTRACTION

Extract ALL identity beliefs from the Belief Path Mapper and categorize by:

- 1.1 Core Identity Beliefs ("I am a [role/type] who...")
- 1.2 Capability Identity Beliefs ("Because I'm [X], I can/can't...")
- 1.3 Value Identity Beliefs ("I value X over Y...")
- 1.4 Tribal Identity Beliefs ("I'm part of [group]..." / "I'm not like those...")
- 1.5 Aspiration Identity Beliefs ("I'm working toward being...")
- 1.6 Shadow Identity Beliefs (What they secretly believe but rarely admit)

For EACH identity belief, document:

- Belief Type
- Gateway Belief? (Yes/No)
- Bottleneck Belief? (Yes/No)
- P.R.I.M.E.™ Relevance
- Emotional Intensity (1-10)

PHASE 2: BEHAVIORAL SIGNAL TRANSLATION

For each identity belief, determine BEHAVIORAL SIGNALS on Facebook/Meta:

- 2.1 Content Consumption Signals (Pages, content types, topics)
- 2.2 Purchase Behavior Signals (Products, services, brands)
- 2.3 Professional Signals (Job titles, industries, organizations)
- 2.4 Educational Signals (Books, courses, thought leaders)

2.5 Lifestyle Signals (Activities, hobbies, life stage)

2.6 Solution-Confused Signals (CRITICAL):

- Failed Attempt Indicators
- Search Fatigue Signals
- Skeptic Engagement
- Frustration Expression

Create Translation Matrix with Translation Confidence (1-10) for each.

PHASE 3: P.R.I.M.E.™-ALIGNED COHORT GENERATION

Based on the P.R.I.M.E.™ diagnosis, generate 30 COHORT THEMES organized by which P.R.I.M.E.™ dimension they address.

For each cohort, document:

- Cohort Theme Name
- Identity Belief Served
- P.R.I.M.E.™ Focus (P/R/I/M/E)
- Confidence or Wild Card designation
- S.P.A.R.K.™ Potential (1-10)

PHASE 4: GATEWAY BELIEF COHORT PRIORITIZATION

Identify which cohorts align with GATEWAY BELIEFS-beliefs that, when shifted, unlock multiple subsequent paths.

Recommend 3-5 cohorts to test FIRST because they:

1. Serve Gateway Beliefs
2. Align with P.R.I.M.E.™ primary weakness
3. Have high Translation Confidence
4. Have high S.P.A.R.K.™ Potential

PHASE 5: COHORT EXPANSION (30 Interests Per Cohort)

For the TOP 5 RECOMMENDED COHORTS, expand into 30 specific, Facebook-targetable interests.

For each cohort provide:

****PSYCHOLOGICAL FOUNDATION:****

- Identity Belief Served
- Gateway Belief Connection
- P.R.I.M.E.™ Profile Served

- Emotional Entry Point

****30 SPECIFIC INTERESTS organized by:****

- Category A: Thought Leaders & Authors (6-8)
- Category B: Books & Publications (5-7)
- Category C: Brands & Companies (5-7)
- Category D: Organizations & Certifications (4-6)
- Category E: Tools & Platforms (4-6)
- Category F: Events & Communities (3-5)

****COHORT QUALITY ASSESSMENT:****

- Behavioral Coherence (1-10)
- Identity Alignment (1-10)
- Facebook Availability (1-10)
- Audience Overlap (1-10)
- Competitive Density (1-10)

PHASE 6: INVISIBLE INFLUENCE ALIGNMENT

For each expanded cohort, specify:

- Surface-Level Targeting (10%): What they consciously experience
- Context-Level Targeting (25%): Environmental framing
- Identity-Level Targeting (30%): How being targeted reinforces identity
- Belief-Level Targeting (25%): Which beliefs this leverages
- Desire-Level Targeting (15%): What underlying desire this channels

PHASE 7: CAMPAIGN STRUCTURE RECOMMENDATION

****INITIAL LAUNCH STRUCTURE (1-1-1 per Cohort):****

Campaign #	Cohort Name	Identity Belief	Gateway Connection	Budget/Day	Priority
------------	-------------	-----------------	--------------------	------------	----------

-----	-----	-----	-----	-----	-----
-------	-------	-------	-------	-------	-------

-|

1	[Cohort]	[Belief]	[Gateway]	\$10	P1-Gateway
2	[Cohort]	[Belief]	[Gateway]	\$10	P1-Gateway
3	[Cohort]	[Belief]	[P.R.I.M.E.™]	\$10	P2-P.R.I.M.E.™
4	[Cohort]	[Belief]	[Wild Card]	\$10	P3-Wild Card
5	[Cohort]	[Belief]	[Wild Card]	\$10	P3-Wild Card

****TESTING WAVES:****

- Wave 1 (Days 1-2.5): Gateway Cohorts
- Wave 2 (Days 3-5): P.R.I.M.E.™ + Wild Card
- Wave 3 (Days 6+): Expansion based on Quick Verdict™

PHASE 8: QUALITY ASSURANCE

Complete verification for:

- Identity Alignment
 - P.R.I.M.E.™ Alignment
 - Solution-Confused Alignment (CRITICAL)
 - Gateway Alignment
 - Invisible Influence Alignment
 - Practical Viability
-

OUTPUT FORMAT

1. EXECUTIVE SUMMARY (1 page)
 2. PHASE 1-2 ANALYSIS (Identity Beliefs + Behavioral Signals)
 3. COHORT CATALOG (30 cohorts)
 4. GATEWAY PRIORITIZATION
 5. EXPANDED COHORTS (Top 5 with 30 interests each)
 6. CAMPAIGN STRUCTURE
 7. QUALITY ASSURANCE
 8. FACEBOOK VALIDATION GUIDE
-

BEGIN ANALYSIS

Review the uploaded Belief Path Mapper output.

MY CORE CONCEPT IS: [TYPE YOUR CORE CONCEPT HERE]

Proceed with Phase 1: Identity Belief Extraction.

PROMPT 02: CREATIVE GENERATOR

Upload: Your Content Ecosystem output file

Copy This Entire Prompt:

CREATIVE GENERATOR v1.0: From Content Ecosystem to Campaign-Ready Ad Creative

YOUR TASK

You are a belief-shifting creative director who transforms psychological content architecture into scroll-stopping ad creative. Your job is to take the complete output from a Content Ecosystem analysis and generate a comprehensive Creative Arsenal™—headlines, ad copy, video scripts, and image concepts that install specific beliefs while appearing as valuable content.

This is INVISIBLE INFLUENCE CREATIVE—where every headline, every hook, every script is designed to shift a specific belief while maintaining high S.P.A.R.K.™ scores.

THE SOLUTION-CONFUSED: YOUR PRIMARY AUDIENCE

All creative must speak to the ****Problem-Aware, Solution-Confused****—people who KNOW they have a problem, HAVE TRIED to solve it, and HAVEN'T gotten results.

****The Reframe Sequence™ (Core Creative Structure):****

1. ACKNOWLEDGE THE SYMPTOM – Name what they think their problem is
2. VALIDATE THEIR FAILED ATTEMPTS – Prove you understand their journey
3. REVEAL THE DEEPER CAUSE – The symptom/cause reframe
4. POSITION AS DIFFERENT – Your solution addresses the REAL problem

****What NOT to Do:****

- ✗ Don't assume they're unaware of their problem—they know
- ✗ Don't pitch like they've never tried to solve it—they have
- ✗ Don't make big promises upfront—they're skeptical
- ✗ Don't teach basic concepts—they've been through "intro" content
- ✗ Don't blame them for their failure—blame the approach they were taught

PHASE 1: EPIPHANY UNIT PRIORITIZATION

Extract Epiphany Units from Content Ecosystem and score each on:

- Hook Potential (1-10)
- Controversy Potential (1-10)
- Demonstration Potential (1-10)
- Relatability (1-10)
- Objection Preemption (1-10)
- Solution-Confused Fit (1-10) – CRITICAL

Select TOP 7 EPIPHANY UNITS for Creative Arsenal.

PHASE 2: INVISIBLE INFLUENCE CREATIVE ARCHITECTURE

For each Priority Epiphany Unit, design:

****5-Layer Influence Design:****

- Surface Layer (10%): What they consciously experience
- Context Layer (25%): Environmental framing
- Identity Layer (30%): Who they become by engaging
- Belief Layer (25%): The actual belief being installed
- Desire Layer (15%): Existing wants channeled

****Tension Design:****

- Teach (70%): Complete value given
- Withhold (30%): Strategic incompleteness

****Polarization Design:****

- FOR: Who this attracts
- NOT FOR: Who should self-select out
- ENEMY: What belief/approach this opposes

PHASE 3: HEADLINE GENERATION

For each Priority Epiphany Unit, generate 5 headline variations:

1. CURIOSITY QUESTION – Opens a loop
2. BOLD DECLARATION – Makes a strong claim
3. BEFORE/AFTER CONTRAST – Juxtaposes states
4. STORY HOOK – Opens a narrative
5. PROVOCATIVE CHALLENGE – Confronts a belief

Each headline must score 7+ on ALL S.P.A.R.K.™ dimensions:

- Significant (7+)
- Proprietary (7+)
- Arousing (7+)
- Resonant (7+)
- Kinetic (7+)

Provide S.P.A.R.K.™ scores for EVERY headline.

PHASE 4: LONG-FORM AD COPY

For each Priority Epiphany Unit, generate one 200–300 word long-form ad following The Reframe Sequence™:

- HOOK (First 2 lines – must stop the scroll)
- SYMPTOM ACKNOWLEDGMENT (Lines 3–5)
- FAILED ATTEMPT VALIDATION (Lines 6–10)

- CAUSE REVEAL (Lines 11-18 - the "aha" moment)
- EVIDENCE (Lines 19-24)
- TRANSFORMATION (Lines 25-28)
- CTA (Final lines - soft, not pushy)

Include S.P.A.R.K.™ assessment for each.

PHASE 5: SHORT-FORM AD COPY

For each Priority Epiphany Unit, generate one 50-100 word short-form ad:

- HOOK (First line)
- CORE INSIGHT (2-3 lines)
- CTA (Final line)

PHASE 6: VIDEO HOOKS

For each Priority Epiphany Unit, generate 3 video hooks (3-5 seconds spoken):

- Option A: QUESTION HOOK
- Option B: STATEMENT HOOK
- Option C: STORY HOOK

Include S.P.A.R.K.™ score and facial expression cue for each.
Recommend which hook to use.

PHASE 7: VIDEO SCRIPTS (60-SECOND)

For each Priority Epiphany Unit, generate one 60-second script:

[0:00-0:05] HOOK
[0:05-0:20] PROBLEM AGITATION
[0:20-0:40] BELIEF SHIFT REVEAL
[0:40-0:55] PROOF/EXAMPLE
[0:55-1:00] CTA

Include [VISUAL CUE] for each section.

PHASE 8: VIDEO SCRIPTS (30-SECOND)

For each Priority Epiphany Unit, generate one condensed 30-second script.

PHASE 9: IMAGE CONCEPTS

For each Priority Epiphany Unit, generate 3 image concepts:

1. CONTRAST/COMPARISON – Before/after or wrong/right
2. METAPHOR/SYMBOLIC – Visual metaphor
3. DATA/PROOF VISUAL – Chart or statistic

Include:

- Main Visual Elements
 - Text Overlay (exact text)
 - Emotional Tone
 - Color Palette
 - Design Direction (specific enough for Canva/designer)
 - S.P.A.R.K.™ score
-

PHASE 10: CREATIVE ARSENAL SUMMARY

Provide:

- Total Inventory (should be 105 pieces)
 - Priority Testing Sequence
 - Platform Strategy
 - Cohort-Creative Matching (which creative for which audience)
-

OUTPUT FORMAT

1. EXECUTIVE SUMMARY
 2. PHASE 1-2 ANALYSIS
 3. HEADLINES (35 total with S.P.A.R.K.™ scores)
 4. AD COPY (7 long-form + 7 short-form)
 5. VIDEO CREATIVE (21 hooks + 7 sixty-second + 7 thirty-second)
 6. IMAGE CONCEPTS (21 total)
 7. CREATIVE ARSENAL SUMMARY
-

BEGIN ANALYSIS

Review the uploaded Content Ecosystem output.

MY CORE CONCEPT IS: [TYPE YOUR CORE CONCEPT HERE]

Proceed with Phase 1: Epiphany Unit Prioritization.

PROMPT 03: CAMPAIGN ARCHITECT

Upload: Your Targeting Translator output (Prompt 01) + Creative Generator output (Prompt 02)

Copy This Entire Prompt:

CAMPAIGN ARCHITECT v1.0: From Cohorts + Creative to Launch-Ready Campaign Structure

YOUR TASK

You are a strategic campaign architect who transforms validated targeting cohorts and creative assets into a systematic, testable campaign structure. Your job is to take the outputs from Targeting Translator and Creative Generator and synthesize them into a complete Deployment Scaffold™.

This is SYSTEMATIC BELIEF VALIDATION—where every campaign is a hypothesis about which belief-tribe pairing creates profitable demand.

PHASE 1: INPUT SYNTHESIS

1.1 Cohort Inventory

Extract all cohorts from Targeting Translator with their identity beliefs served.

1.2 Creative Inventory

Extract all creative from Creative Generator with S.P.A.R.K.™ scores.

1.3 Cross-Reference Matrix

Create belief alignment matrix showing which creative pieces align with which cohorts.

1.4 P.R.I.M.E.™ Alignment Check

Verify coverage across cohort-creative pairings.

PHASE 2: CAMPAIGN HYPOTHESIS DESIGN

For each of 5 campaigns, write a testable hypothesis:

****HYPOTHESIS FORMAT:****

"If we show [CREATIVE TYPE] addressing [BELIEF SHIFT] to [COHORT] who hold [IDENTITY BELIEF], then [EXPECTED OUTCOME] because [STRATEGIC RATIONALE]."

Include expected signals (CTR target, CPL target).

PHASE 3: DEPLOYMENT SCAFFOLD™ STRUCTURE

3.1 1-1-1 Campaign Architecture

Each campaign follows:

CAMPAIGN LEVEL

└─ Name: [BELIEF]-[COHORT]-[DATE]

└─ Objective: Conversions/Leads

└─ Daily Budget: \$10

|

└─ AD SET LEVEL

└─ Targeting: [Cohort interests]

|

└─ AD LEVEL

└─ Creative: [Specific from arsenal]

3.2 Campaign Naming Convention

[BELIEF-CODE]-[COHORT-CODE]-[CREATIVE-CODE]-[DATE]

PHASE 4: LAUNCH WAVE DESIGN

****WAVE 1: GATEWAY BELIEF VALIDATION (Days 1-3)****

- Focus: Highest-priority Gateway Beliefs
- Budget: 40% of total
- Campaigns: 2-3

****WAVE 2: P.R.I.M.E.™ EXPANSION (Days 4-6)****

- Focus: Address P.R.I.M.E.™ primary weakness
- Budget: 30% of total
- Campaigns: 2-3 additional

****WAVE 3: WILD CARD EXPLORATION (Days 7-10)****

- Focus: Unexpected pairings
- Budget: 20% of total
- Campaigns: 2-3 additional

****RESERVE: 10%** for scaling winners**

PHASE 5: CREATIVE DEPLOYMENT MATRIX

For each campaign, specify:

- Primary Ad (headline, text, creative, CTA)
 - Creative Rationale
 - Variation Queue (for Prune scenarios)
-

PHASE 6: DECISION FRAMEWORK INTEGRATION

Quick Verdict™ Decision Points (at 60 hours)

Metric	Green (Scale)	Yellow (Prune)	Red (Cut)
CTR	>1.5%	1.0–1.49%	<1.0%
CPC	<\$2.00	\$2.00–\$3.99	>\$4.00
CPL	≤Target	Target to +25%	>Target+25%

SCALE Protocol:

- Duplicate exact settings
 - Budget for duplicate: \$10/day
 - Combined budget: \$20/day
-

PHASE 7: TRACKING & ATTRIBUTION SETUP

UTM TEMPLATE:

?utm_source=facebook&utm_medium=paid&utm_campaign=[CAMPAIGN]&utm_content=[CREATIVE]

PHASE 8: BUDGET ALLOCATION SUMMARY

Wave	%	Daily \$	Campaigns	Per Campaign
Wave 1	40%	\$(X)	[#]	\$10
Wave 2	30%	\$(X)	[#]	\$10
Wave 3	20%	\$(X)	[#]	\$10
Reserve	10%	\$(X)	–	–

PHASE 9: LAUNCH CHECKLIST

Verification for targeting, creative, tracking, budget, naming.

PHASE 10: INTELLIGENCE CAPTURE TEMPLATE

Template for documenting learnings after each Quick Verdict cycle.

OUTPUT FORMAT

1. EXECUTIVE SUMMARY
2. INPUT SYNTHESIS
3. CAMPAIGN HYPOTHESES (5)
4. DEPLOYMENT SCAFFOLD
5. CREATIVE DEPLOYMENT
6. DECISION FRAMEWORK
7. TRACKING & BUDGET
8. LAUNCH CHECKLIST

PROMPT 04: RETARGETING BUILDER

Upload: Your Content Ecosystem output file

Copy This Entire Prompt:

RETARGETING BUILDER v1.0: From Content Clips to Visibility Stack™

YOUR TASK

You are a strategic omnipresence architect who transforms content assets into a systematic retargeting ecosystem. Your job is to take the video clips from a Content Ecosystem analysis and organize them into a Visibility Stack™—a 30–50 ad retargeting system that keeps you constantly present in your warm audience's feed.

This is MANUFACTURED OMNIPRESENCE—warm prospects see you 3–7 times per week at \$1/day per ad.

THE SOLUTION-CONFUSED: RETARGETING CONTEXT

Your Pond contains primarily Solution-Confused prospects who:

- Have engaged with your content
- Have TRIED other solutions before finding you
- Are STILL skeptical
- Need CONTINUED reframe reinforcement

PHASE 1: CLIP INVENTORY EXTRACTION

Extract all video clips from Content Ecosystem, categorizing by:

- Duration
- Topic/Theme
- Potential Category (Connection/Authority/Credibility/Activation)

PHASE 2: INVISIBLE INFLUENCE ALIGNMENT

For each clip, design 5-layer influence pattern.

PHASE 3: POND AUDIENCE ARCHITECTURE

Define warm audiences:

- Website Visitors (retention period, threshold)
- Email List
- Video Viewers (25%+, 75%+)
- Social Engagement
- Combined "Pond" audience

Include Custom Audience creation instructions.

PHASE 4: STACK COMPOSITION

****TARGET DISTRIBUTION (40 ads):****

- Connection: 27% (~11 ads)
- Authority: 33% (~13 ads)

- Credibility: 27% (~11 ads)
- Activation: 13% (~5 ads)

PHASE 5: AD SPECIFICATIONS

For EACH of 40 ads, provide:

- Ad Number and Name
- Category (C/A/C/A)
- Source Content (specific clip from Content Ecosystem)
- Format (video/image/carousel)
- Duration
- Primary Text (complete)
- Headline
- CTA Button (or "None" for Connection/Authority)
- Daily Budget (\$1)

PHASE 6: CAMPAIGN STRUCTURE

Single Campaign structure:

- Objective: Reach or Brand Awareness
- Budget: ~\$40/day total
- 4 Ad Sets (Connection, Authority, Credibility, Activation)

PHASE 7: LAUNCH SEQUENCE

- WEEK 1: Foundation (50% of stack - 20 ads)
- WEEK 2: Expansion (remaining 50%)
- WEEK 3+: Optimization

PHASE 8: MONITORING & OPTIMIZATION

Key metrics and frequency management guidelines.

PHASE 9: INTEGRATION WITH COLD TRAFFIC

How Visibility Stack connects with cold traffic campaigns.

```
## PHASE 10: CONTENT GAP ANALYSIS
```

Identify missing content that needs to be created.

```
## OUTPUT FORMAT
```

1. EXECUTIVE SUMMARY
2. CLIP INVENTORY
3. POND ARCHITECTURE
4. STACK COMPOSITION (complete 40-ad roster)
5. AD SPECIFICATIONS (all 40)
6. CAMPAIGN STRUCTURE
7. LAUNCH SEQUENCE
8. MONITORING
9. INTEGRATION & GAPS

```
## BEGIN ANALYSIS
```

Review the uploaded Content Ecosystem output.

MY CORE CONCEPT IS: [TYPE YOUR CORE CONCEPT HERE]

PROMPT 05: FUNNEL TRANSLATOR

Upload: Your Belief Gap Analyzer output file

Copy This Entire Prompt:

```
# FUNNEL TRANSLATOR v1.0: From Belief Gap Analysis to Conversion Architecture
```

```
## YOUR TASK
```

You are a conversion architect who transforms psychological belief gaps into funnel stages, email sequences, and sales page architecture. Your job is to take the complete output from a Belief Gap Analyzer and translate it into a Match Funnel™—where each stage addresses a specific belief gap.

THE SOLUTION-CONFUSED: FUNNEL CONTEXT

The 6 Conversion Gaps are REFRAMED for Solution-Confused prospects:

1. ****SOLUTION FIT**** - "Is this ACTUALLY different from everything I've tried?"
2. ****CAPABILITY**** - "Can I succeed THIS time when I've failed before?"
3. ****INVESTMENT**** - "Am I throwing good money after bad AGAIN?"
4. ****TIMING**** - "Should I keep trying or give up?"
5. ****GUIDE**** - "How is this person different from experts who failed me?"
6. ****RISK**** - "What if I get burned AGAIN?"

PHASE 1: CONVERSION GAP EXTRACTION

Extract all 6 conversion gaps with:

- Current Belief
- Required Belief
- Gap Size (1-10)
- Bridge Strategy
- Evidence Required

PHASE 2: MICRO-COMMITMENT LADDER INTEGRATION

Extract the 9-step micro-commitment ladder.
Identify Point of No Return (PONR) - usually Step 6.

PHASE 3: FUNNEL STAGE ARCHITECTURE

For each stage, specify:

- Primary Conversion Gap addressed
- Entry State / Exit State
- Gap Bridge Strategy
- Proof Required
- Micro-Commitment triggered

PHASE 4: EMAIL SEQUENCE ARCHITECTURE

For each of 7 emails (Days 0-6):

- Gap Addressed
- Subject Line Options (3) with S.P.A.R.K.™ scores
- Email Structure:

- Hook
- Agitation
- Belief Bridge
- Proof
- Micro-Commitment
- CTA

PHASE 5: LANDING PAGE ARCHITECTURE

Section-by-section specs:

1. Headline + Above the Fold (which micro-commitment)
2. Problem Amplification
3. Solution Introduction (Core Concept)
4. What They Get
5. About/Trust Section
6. Proof Element
7. CTA

Include belief bridge for each section.

PHASE 6: SALES PAGE ARCHITECTURE

Full sales page flow addressing all 6 gaps:

1. Headline
2. Problem Agitation
3. Solution Reveal
4. Capability Proof
5. Testimonials
6. Offer
7. Objection Handling
8. Close

PHASE 7: RETARGETING INTEGRATION

Stage-based retargeting audiences and messaging.

PHASE 8: FUNNEL METRICS & OPTIMIZATION

****Conversion Chain™ Targets:****

Stage	Target	If Below =
-----	-----	-----

```
| Ad → LP | 1.5% CTR | Creative problem |  
| LP → Opt-in | 30%+ | Solution Fit gap |  
| Opt-in → Sales | 10%+ | Email sequence issue |  
| Sales → Purchase | 2-5% | Investment/Risk gaps |
```

OUTPUT FORMAT

1. EXECUTIVE SUMMARY
2. GAP EXTRACTION
3. MICRO-COMMITMENT INTEGRATION
4. FUNNEL ARCHITECTURE
5. EMAIL SEQUENCE (7 emails, complete)
6. LANDING PAGE
7. SALES PAGE
8. METRICS

Proceed with Phase 1: Conversion Gap Extraction.

PROMPT 06: TESTING EVALUATOR

When to Run: AFTER 60 hours of campaign data

No Upload: Paste your campaign data into the prompt

Copy This Entire Prompt:

```
# TESTING EVALUATOR v1.0: From Campaign Data to Cut/Prune/Scale Decisions
```

YOUR TASK

You are a strategic campaign analyst who transforms raw performance data into actionable intelligence using the Quick Verdict™ framework.

THE SOLUTION-CONFUSED: TESTING CONTEXT

Metric Interpretation for Solution-Confused:

- CTR may be slightly lower (1.0-1.5% acceptable) – they're skeptical
- Higher quality leads expected
- Longer consideration cycles normal

Failure Diagnosis Reframe:

- "Hook didn't work" → "Did we acknowledge their failed attempts?"
- "Message didn't resonate" → "Did we treat them like beginners?"
- "Wrong audience" → "Did we target people who have TRIED solutions?"

PHASE 1: DATA VALIDATION

Minimum requirements:

- Hours running: 60+
- Impressions: 1,000+
- Clicks: 20+

PHASE 2: METRIC THRESHOLD ANALYSIS

TRAFFIC:

Metric	Scale	Prune	Cut
CTR	>1.5%	1.0-1.49%	<1.0%
CPC	<\$2.00	\$2.00-\$3.99	>\$4.00

CONVERSION:

Metric	Scale	Prune	Cut
Opt-in Rate	>30%	20-29%	<20%
CPL vs Target	≤Target	+25%	>+25%

PHASE 3: VERDICT RENDERING

- IF any critical metric = RED and unprofitable → CUT
- IF ALL metrics = GREEN → SCALE
- IF mixed (yellows/greens) → PRUNE
- IF limited data but strong signals → EXTEND 60 more hours

PHASE 4: DIAGNOSTIC ANALYSIS

For CUT: Root cause (Belief/Cohort/Creative/Landing Page)

For PRUNE: Weakest link and variable to test next

For SCALE: Success factors and replication opportunity

PHASE 5: ACTION SPECIFICATIONS

Specific, executable next steps for each campaign.

PHASE 6: BUDGET REALLOCATION

Move budget from CUT to SCALE campaigns.

PHASE 7: NEXT CYCLE PLANNING

Schedule next evaluation and plan next wave.

OUTPUT FORMAT

1. EXECUTIVE SUMMARY
2. DATA VALIDATION
3. METRIC ANALYSIS
4. VERDICTS (with clear CUT/PRUNE/SCALE for each)
5. DIAGNOSTICS
6. ACTIONS
7. BUDGET REALLOCATION
8. NEXT CYCLE

PROMPT 07: LAUNCH WORK ORDER GENERATOR

Upload: ALL outputs from Prompts 01-05

Copy This Entire Prompt:

```
# LAUNCH WORK ORDER GENERATOR v1.0: From Strategy to Build Checklist

## YOUR TASK

You are a production coordinator who synthesizes all strategic outputs into an actionable build checklist. Generate a specific, prioritized WORK ORDER that tells exactly what assets to create before launching.

---

## THE MVP PRINCIPLE

MVP = Minimum Viable Paid Traffic Test

MVP SCOPE:
├─ Landing Page: 1 base page with modular headline variants
├─ Clusters to Test: 2-3 simultaneously
├─ Cold Ads Per Cluster: 5-7 variations
├─ Retargeting Pieces: 15-20 (not full 40)
├─ Budget: $30-50/day
├─ Test Window: 7 days
└─ Purpose: Validate message-market fit before scaling

---
```

PHASE 1: STRATEGIC SYNTHESIS

1.1 Core Strategy Summary

- Avatar Overview
- Core Concept
- Primary P.R.I.M.E.™ Weakness
- Target CPL
- Target Opt-in Rate

1.2 Priority Clusters (TOP 2-3)

Priority	Cluster Name	Gateway Belief	Lead Message Angle	Daily Budget
-----	-----	-----	-----	-----

1.3 Primary Reframe and Solution-Confused Hooks

PHASE 2: LANDING PAGE WORK ORDER

2.1 Base Structure (Fixed Elements)

- Lead Magnet Description
- Bullet Points (What You'll Learn)
- About/Trust Section
- Proof Element
- CTA Button Text

2.2 Modular Elements by Cluster

For each cluster: Headline, Subhead, Opening Line

2.3 Technical Specs

- URL Structure
- Pixel installation
- Conversion events

PHASE 3: LEAD MAGNET WORK ORDER

- Title
- Format
- Content Outline (sections)
- Estimated Length
- Production Checklist

PHASE 4: COLD AD COPY WORK ORDER

4.1 Per Cluster (5-7 ads each = 15-21 total)

- Primary Video Ad: 1
- Secondary Video Ad: 1
- Image/Static Ads: 2-3
- Long-form Copy Ads: 1-2

4.2 Specifications for Each Ad

| Ad # | Format | Creative Source | Headline | Primary Text (First 2 Lines) |

4.3 Full Primary Text for Each Ad

Complete copy, ready to paste.

4.4 Production Checklist

PHASE 5: VISIBILITY STACK WORK ORDER (MVP 15-20 Pieces)

5.1 Category Allocation

- Connection: 4-5 (27%)
- Authority: 5-7 (33%)
- Credibility: 4-5 (27%)
- Activation: 2-3 (13%)

5.2 MVP Production Queue

- PRIORITY 1 (Must Have): 5 pieces
- PRIORITY 2 (Launch Week): 5 pieces
- PRIORITY 3 (Week 2): 5 pieces
- PRIORITY 4 (Optional): 5 pieces

Each with: Title, Category, Format, Key Message

5.3 Content Repurposing Assessment

What existing content can be adapted?

PHASE 6: TECHNICAL SETUP WORK ORDER

6.1 Pixel & Tracking

- [] Pixel created
- [] Pixel installed on landing pages
- [] Events configured (PageView, Lead)

6.2 UTM Template

?utm_source=facebook&utm_medium=paid&utm_campaign=[X]&utm_content=[Y]

6.3 Custom Audiences

Audience	Source	Lookback

WEB_All	Website	180 days	
EMAIL_Active	List	-	
VIDEO_75pct	Video	365 days	
COMBINED_Pond	All above	-	

6.4 Campaign Structure in Ads Manager

6.5 Email Integration

PHASE 7: BUILD SEQUENCE & TIMELINE

7.1 Day-by-Day Schedule

DAYS 1-2: FOUNDATION

Task	Est. Time	Deliverable	
-----	-----	-----	
Landing page	2-4 hrs	Published page	
Lead magnet	2-4 hrs	Downloadable asset	
Pixel setup	1-2 hrs	Verified	
Email automation	1-2 hrs	Connected	

DAYS 3-4: COLD TRAFFIC ASSETS

Task	Est. Time	Deliverable	
-----	-----	-----	
Video ads	3-6 hrs	4-6 ready	
Image ads	2-3 hrs	6-9 ready	
Primary text	2-4 hrs	All copy	

DAYS 5-6: VISIBILITY STACK ASSETS

Task	Est. Time	Deliverable	
-----	-----	-----	
Priority 1 retargeting	3-5 hrs	5 pieces	
Priority 2 retargeting	3-5 hrs	5 pieces	

DAY 7: CAMPAIGN BUILD

Task	Est. Time	Deliverable	
-----	-----	-----	
Custom audiences	1 hr	Saved	
Campaign structure	2-3 hrs	Built	
Upload ads	2-3 hrs	Submitted	
Verification	1 hr	Ready	

7.2 Launch Day Checklist

- [] Landing page loads (mobile + desktop)
- [] Pixel firing
- [] Lead magnet delivers
- [] Email triggers

- [] All ads approved
- [] Budgets correct
- [] 60-hour reminder set

PHASE 8: EXECUTIVE SUMMARY

8.1 At-a-Glance

Asset	Quantity	Priority
-----	-----	-----
Landing Pages	1 + variants	Critical
Lead Magnet	1	Critical
Cold Ads	15-21	Critical
Retargeting	15-20	Critical
Emails	7	Critical

****Total Build Time:**** 25-40 hours over 7 days

****Launch Budget:**** \$30-50/day

8.2 Critical Path (Blockers)

- [] Landing page live
- [] Pixel verified
- [] Lead magnet ready
- [] Email automation working
- [] 5+ cold ads per cluster
- [] 10+ retargeting pieces

8.3 Success Criteria

Metric	Target
-----	-----
CTR	>1.5%
CPL	<\$10
Opt-in	>30%

OUTPUT FORMAT

1. EXECUTIVE SUMMARY
2. LANDING PAGE WORK ORDER
3. LEAD MAGNET WORK ORDER
4. COLD AD COPY WORK ORDER (complete copy)
5. VISIBILITY STACK WORK ORDER
6. TECHNICAL SETUP
7. BUILD SEQUENCE (day-by-day)
8. LAUNCH CHECKLIST

MY PRODUCTION CONSTRAINTS

Timeline: [How many days until launch?]

Team: [Solo or team?]

Budget: [Daily ad budget?]

Tech: [Email platform, landing page builder?]

BEGIN SYNTHESIS

Review all uploaded outputs from prompts 01-05.

Proceed with Phase 1: Strategic Synthesis.

6. STEP-BY-STEP EXECUTION GUIDE

Phase 1: Preparation

- ☐ Gather L6 outputs (saved as files)
- ☐ Verify each output is complete
- ☐ Have AI tool open (Claude or ChatGPT)
- ☐ Block 90 minutes

Phase 2: Run Prompts 01-02 (35 min)

Prompt 01: Targeting Translator

1. Copy prompt from Section 5
2. Paste into AI
3. Upload Belief Path Mapper file
4. Type your Core Concept at the end
5. Run → Save output

Prompt 02: Creative Generator

1. Copy prompt from Section 5
2. Paste into AI

3. Upload Content Ecosystem file
4. Type your Core Concept at the end
5. Run → Save output

Phase 3: Run Prompts 03-05 (50 min)

Prompt 03: Campaign Architect

1. Copy prompt
2. Upload Prompt 01 output + Prompt 02 output
3. Type your budget
4. Run → Save output

Prompt 04: Retargeting Builder

1. Copy prompt
2. Upload Content Ecosystem file
3. Type your Core Concept
4. Run → Save output

Prompt 05: Funnel Translator

1. Copy prompt
2. Upload Belief Gap Analyzer file
3. Type your offer details
4. Run → Save output

Phase 4: Run Prompt 07 (15 min)

Prompt 07: Launch Work Order

1. Copy prompt
2. Upload ALL outputs from 01-05
3. Type your production constraints
4. Run → This is your master checklist

Phase 5: Post-Launch (After 60 hours)

Prompt 06: Testing Evaluator

1. Copy prompt
 2. Paste your campaign data
 3. Run → Get Cut/Prune/Scale decisions
-

7. UNDERSTANDING THE SAMPLE OUTPUTS

The sample outputs were generated for the **Strategic Consultant Avatar** with Core Concept: "**Get paid for who you are, not what you do.**"

Your outputs will differ because your avatar and Core Concept are different. The STRUCTURE will be the same.

Key Insights from Samples:

- Targeting is driven by PSYCHOLOGY, not demographics
 - Creative validates failed attempts before revealing the cause
 - Campaign architecture is SCIENTIFIC testing
 - Visibility Stack creates omnipresence on a budget
 - Funnel is architected around psychological journey
-

8. RED FLAGS: WHAT BAD OUTPUT LOOKS LIKE

Prompt 01: Targeting Translator

Bad: Cohorts are demographic (age, location, income)

Good: Cohorts target identity beliefs and psychological signals

Prompt 02: Creative Generator

Bad: Headlines don't mention failed attempts; no S.P.A.R.K.™ scores
Good: Headlines follow Reframe Sequence; all have S.P.A.R.K.™ scores

Prompt 03: Campaign Architect

Bad: No testable hypotheses; wrong budget (\$20/day instead of \$10/day)
Good: Clear "If X then Y because Z" hypotheses; \$10/day per campaign

Prompt 04: Retargeting Builder

Bad: Wrong distribution; no source clips; hard sells in Activation
Good: 27/33/27/13 distribution; specific clips; soft CTAs

Prompt 05: Funnel Translator

Bad: No PONR identified; stages don't map to gaps
Good: Clear PONR at Step 6; each stage maps to Conversion Gap

Prompt 07: Launch Work Order

Bad: Vague tasks ("create content"); no MVP scope
Good: Day-by-day schedule; MVP scope (15-20 retargeting, 2-3 clusters)

9. WHAT YOU'RE BUILDING FOR LESSON 8 (The L7→L8 Bridge)

Required for L8

L7 Output	L8 Needs It For
Launch Work Order (07)	Master checklist
Creative Generator (02)	Headlines and scripts
Retargeting Builder (04)	40-ad roster

L7 Output	L8 Needs It For
Funnel Translator (05)	Landing page and emails

Homework Before L8

- 1. Review Launch Work Order - complete?
- 2. Priority clusters identified?
- 3. Recording setup ready?

10. QUICK REFERENCE & TROUBLESHOOTING

What to Upload

Prompt	Upload
01	Belief Path Mapper
02	Content Ecosystem
03	01 output + 02 output
04	Content Ecosystem
05	Belief Gap Analyzer
06	Campaign data (paste)
07	ALL outputs (01-05)

Key Metrics

Metric	Target
CTR	1.5%+
CPL	<\$10
CPC	<\$2
Opt-in	30%+

Quick Verdict

	CPL <\$10	CPL \$10-20	CPL >\$20
CTR >1.5%	SCALE	PRUNE	CUT
CTR 1-1.5%	PRUNE	PRUNE	CUT
CTR <1%	CUT	CUT	CUT

FINAL NOTE

This workbook contains everything you need to complete Lesson 7 independently:

- All 7 prompts embedded and ready to copy
- Upload-based instructions (no tedious copy/paste)
- Complete glossary
- Step-by-step execution guide
- Red flags to catch bad output

The prompts are designed as a system—each output feeds the next.

Now execute.

ZenithPro Lesson 7 Complete Student Workbook

Version 3.0 — December 3, 2025

Self-Study Complete Edition (All Prompts Embedded)
